

REMARKS

Claims 27-54 are active in the case.

The present invention relates to a polyurethane powder coating material comprising polyureas, polyesters and crosslinkers.

Claim Amendments

Claims 27, 30 and 47 have been amended in order to improve upon language in these claims. Claim 27 has also been amended in order to provide antecedent basis in the claim for the necessary presence of succinic acid in the polycarboxylic acid reactant. None of the amendments that have been made introduces new matter into the case. Entry of the amendments into the record is respectfully requested.

It is believed that the application is in proper condition for publication.

Respectfully submitted,
